

# CMHPSM Provider Network Informational Bulletin

**Date: 10/18/2021**

**Topic: FY2022 \$2.35 per Hour Premium Pay**

## **Information:**

On October 13, 2021 our CMHPSM Regional Board of Directors approved the pass-through of funding to cover the \$2.35/hour FY2022 provider premium pay increase and \$0.29/hour for related employer costs, bringing the total adjustment to \$2.64/hour for eligible service delivery. The \$2.35/hour premium pay took effect on October 1, 2021 and is set to expire on September 30, 2022 and replaces the \$2.25/hour premium pay which was in effect through the end of FY2021.

The CMHSPs within the region will receive funding to support the premium pay increases effective immediately for all services that received premium pay support in FY2021. Our region is hoping to have all appropriate fee schedules updated prior to providers billing for October 2021 service delivery.

Services that were eligible for provider premium pay in FY2021 include:

# CMHPSM Provider Network Informational Bulletin

We are awaiting the Medicaid Services Administration (MSA) L-letter to formally establish all details of the FY2022 \$2.35/hour premium pay and we will share that information with the provider network when it is released. If any new services, beyond those reimbursed during FY2021, are determined to be eligible for provider premium pay, we will retroactively apply appropriate fee-schedule increases and require back pay to all eligible workers.

As always, we want to pass along our appreciation of the provider network service providers and their employees. We hope to continue to pass through information, funding and assistance to the provider network as efficiently, expeditiously and effectively as possible after it comes from the State.

Provider questions should be directed to your contract contact or can be sent to [help@cmhpsm.org](mailto:help@cmhpsm.org).
