# 7. Report from Regional Board

# Review PA2 policy update; discuss funding strategy

- While reviewing budget amendments, the Regional Board also discussed PA2 dollars. They wanted to know why there was so much PA2 money sitting in the bank.
- The Regional Board understands that OPB controls PA2 dollars, but did suggest that OPB have a mechanism for allocating and monitoring PA2 dollars, a plan, target that says, "we have too much money we need to spend some."
- Currently OPB has an interest in not making any major decisions until it's clear what's happening from the ACA perspective.
- D. McCormick would like to prioritize PA2 funds, and requested that a copy of the strategic plan be re-sent to OPB members.
- OPB to Regional Board: OPB won't be making any major decisions until ACA situation is sorted out. OPB and staff are also looking at proposals for service via the RFP responses.

### 8. SUD Director Report

- a. United to Face Addiction Event Support
  - M. Scalera provided an update.
- b. STR Grant Information
  - M. Scalera provided an update.
- c. Other Issues
  - The state has approved a Veterans Coordinator position, 1 for each region, who will help to negotiate services for veterans.
  - M. Scalera provided an overview on the Michigan State Police's Angel Project, in which peers can become Angels. Angels are peer mentor who assist in getting people addicted to opiates into treatment.

The strategic annual PA2 funding level was calculated by holding back 1/3 of each counties PA2 reserve, and then allocating the remaining 2/3 out over the next three fiscal years in addition to annual projected PA2 revenues.

CMHPSM staff have determined that proposals receiving a score of less than 80% undergo additional review and any potential award recommendations be presented next month as a second funding round.

# SUBSTANCE ABUSE PREVENTION SERVICES

# PREVENTION PROGRAM MONITORING

FY 2016-2017

All CMHPSM funded prevention programs are monitored on a regular basis. The mid-year point allows for a more in-depth analysis based on a variety of factors including: the amount of time for program implementation, the submission of Outcome Progress Reports, EBI Program Assessment/Fidelity Forms, and Coalition Community Sector Checklists (where applicable). Prevention programs are reviewed from multiple perspectives, including: financial, contractual, MPDS entries, programming, and progress on planned activities in relationship to outcomes.

For those areas that have not produced the results anticipated, either a 'course correction' is required, or a reduction in funds may be warranted. The CMHPSM promotes the rectification of program implementation to enhance the opportunity for successful efforts within the respective targeted community. Thus, feedback and consultation are provided where necessary.

#### FY 2017 Desk Audit:

In lieu of a formal site visit, CMHPSM Prevention Coordinators conducted a desk audit of all contracted Prevention Providers for FY 2017. Providers submitted documentation as proof of their compliance with the standards outlined in the FY17 CMHPSM Prevention Desk Audit Tool, which includes a variety of review components derived from the CMHPSM's prevention contract with providers, SUD Administrative Rules, LARA licensing requirements, etc.

Audit submissions were reviewed and scored in March and Providers were offered an opportunity to submit corrective action responses to improve their scores. Overall, Prevention Providers scored exceptionally well; the average desk audit score after corrective action review was 98% and only one provider scored below the 85% threshold. Prevention Coordinators will continue to work with the low-scoring Provider to ensure their compliance with CMHPSM standards.
